Welcome to multiseal

Goodbye Scotia, Hello MultiSeal

YuSeal Limited is offering a revolutionary alternative to scotia. MultiSeal is a flexible continuous PVC strip infused with antibacterial compound, with a flipper on one side and a high grade double sided glue on the other that seals under tension. More cost effective than scotia, MultiSeal is the obvious choice. MultiSeal is eco friendlier too and with every box of 200m sold, we save approx 15 tubes of silicone going to landfill!

YU SEAL

Available in 5m and 25m rolls and 2 different widths, 6 x 6 mm and 10 x 8 mm.

MultiSeal is currently available in white, clear, grey and black but can be manufactured in any RAL colour, subject to minimum order. Order your free samples today.
https://www.yuseal.com

Easy to fit, durable and an evenness of finish difficult to achieve with other products, MultiSeal can be fitted on a multitude of different floorings; laminate, tiles, vinyl and more.

We strongly advise you follow our fitting instructions to install MultiSeal.
